Lakewood Was Played by the Knowing Ones in the First.

IMPROVAL TO THE EVENING WORLD ! CLIPTON RACE TRACE, Dec. 31. - The threating weather and flurry of snow at noon kep nany people from visiting Clifton track to day, still there is a good crowd present. The card was a good one, and the track in fair condition, and an excellent day's sport was had, god thing for Lysander. So when the bookies irked up 2% to 1 on Lysauder and even money on Meade the talent fell upon their

money on Meade the talent fell upon their necks, so to speak, and wept tears of joy. The positions of the two were quickly reversed, for Lysander was quickly made favorite, with Meade a strong second choice. Lakewood was heavily backed at the close, and was pounded from 10 to 1 to 4 to 1, and won easily after being whipped half the way. Cecilia was second and Lysander third. Sparling was made favorite for the second race with Joe Courtney a second; choice. The latter was backed toward the close, and every time the odds were raised on Sparling they were as quickly knocked down.

Brian Born was fancied for third place money and a tew bets went on Steve Jerome.

Brian Born was fancied for third place money and a lew bets went on Steve Jerome.

Sparling won, but Flynn drew such a finish that it was only by a neck. Louise was second and Engeavor third.

The running of Joe Courtney provoked severe criticism.

The third race showed a favorite in Hydra, who opened up at a short price. The cinch players, bowever, figured out that Meiville was a good thing with Parter up, and they pounded it to a very sharts price.

One bookle pealed 30 to 1 Melville, but the rush of bettors scared him so that he refused to make a bet.

Fine Racing and Close Finishes at Guttenburg.

KENWOOD-CAPULIN DEAD HEA

Many Pool-Rooms Actively Pre-

Even the most pronounced enemies of Winer racing could but have expressed admiraion at the fine racing seen on the Gutte rack yesterday. In nearly every event three or four of the runners night it out in close order at the finish, and the enthusiasm of the spectators was reused to the highest pitch in the lourth race, when Kenwood, Capulin, Linzie, Tipstaff and Gloster finished so close together that a blanket would have covered hem. This race resulted in a dead heat between Capulin and Kenward, with Tipstaff and Lizzie only separated by necks. It was best-tiful racing, and every one was highly pleased with the day's sport. It is reported on good authority that Senato

Hearst will retire from the turf after the next eason is over. He will weed out the worthless horses in his stable next Spring, and go through the year with only Tournament, osemite and one or two others wearing the familiar yellow and green. It may be that the Senator's poor health has had some he on his decision, and perhaps if next Fall finds him better he may reconsider his d When the dead heat was announced betw Capulin and Kenwood yesterday Mr. Walsaum, the owner of the latter, wanted to

noticed this, and thinking perhaps that they

win. youngsters, but the Elia Lakeland filly showed well at Clifton the other day and is a good looker. She may win, with the best of the Hoboken Stable eatry second. The Refraction filly may be third.

The fifth event is the Albha Handicap at a mile and a sixteenth. Kenwood looks to be the best of the lol, and is now on edge, as his races of yesterday showed. He should win.

My Fellow, aithough carrying top weight, ought to be yery close to him at the finish, and Blue Jesus will probably bead the others.

The sixth race is at seven furlongs. Vardee may win, with Brussels second. Gloster, if he is reserved for this race, ought to beat the others.

The schedule arranged by the Turf Congress at Louisville last Fall will be chan ed so that the Western meetings will come in this order: New Orleans, Memphia, Nasswille, Lexington and Louisville. Latonia will continue racing until the op-ning of Washington Park at Calcage. Then comes St. Paul, to be followed by St. Louis and Kansas City in the order named, This enables all the Western horses to race to advantage in the West and all the Western associations to stand together for each other's good.

Spaulding was a good thing vesterds.

Leo Brigel would have come very near winning the first race yesterday, had he not been interfered with and been compelled to drop back at the start. Lambley was unable to get through until the atretch, and was unable to get up to the start. Lambley was unable to get up at the finish.

Guttenburg racegoers have considerable sport in going and returning from the races. There are half a dozen big sleighs capable of carrying fifteen people such that rue to and from the track. They all get off on about even terms and a race ensues to the track that view with the regular races in extrestness, if not in speed. Ursed by the racegoers, the drivers lash their old mags to the utmost. More fouls occur in the twenty minutes ride than there would be on a track in a year. But everything goes.

An astonishing plunge was made on the Maggle C. gelving at the close of the botting in the last race yesterday. In less than three minutes the odds had tumbled from 20 to 1 to 7 to 1, and would propably have gone lower had not the race started. She ran well for six furtongs and then quit badly.

Lizzie, the ficet filly owned by W. C. Daly, will start in the Alpha Handicap to-morrow and then be retired to the latter's ram in Hartford. He is of the opinion that Lizzie is too good a filly to be knocking about on the Winter tracks.

The headquarters of the various jockey clubs are very dull nowadays. It is the caim that precedes the storm. In a few weeks a rush of business will set in, and with the announcement of the weights for the big handicaps work will begin in carnest.

Mike Daly recently lost a half brother to Major Demo, in the two-year-old colt by Uness, out of Sweet Home. Blood poisoning caused the colt's death.

Every time a horse runs away on the Gutten-burg track some insane individual gets out on the course and tries to throw a blanket over the animal's head. It is like waving a red flag in the face of an infuriated bull and if the smart individual could hear what is saulef him during his antics he would retire quietly and in good order.
